PLEASE NOTE:

All prices are exclusive of VAT and delivery.

All breakfasts are made without meat, as this allows Jewish guests to have milk through the course of the day. If a Jewish person eats meat at any time, there is a 6-hour waiting period before they can consume any milk products. We have found this to work best for our clients as well as your guests.

Crockery and cutlery are included with the meal and are non-returnable.

Please ensure that the seals on the meals are not broken before the meal is delivered to the guest – this invalidates the religious status of the meal.
